

Title: Sewing Machinist

Location: Cambrai Street, Belfast

Responsible to: Production Manager

Job Purpose: To carry out a range of industrial sewing duties and mattress tape edging

Job Ref: SM17/2

Job Description:

- To stitch the full range of industrial sewing products to required company and customer quality standards.
- To finish mattresses (tape-edging) using various industrial sewing machines to the required quality standards.
- To operate a range of industrial sewing machines as appropriate.
- To work as part of a team of industrial sewing operatives and ensure team performance requirements are met.
- To meet agreed productivity targets within set time limits.
- To adhere to all Health & Safety practices and procedures.
- To adhere to ISO 9001:2008 quality procedures.
- To participate in job rotation within Usel where appropriate.
- To undertake any other reasonable duties issued by management.

Person Specification

- Previous experience of working in an industrial sewing environment.
- Previous experience of Tape Edging is desirable
- Product specific training will be given as appropriate.

Terms and Conditions

- 35 hours per week – worked over 4½ day week
- 27 days annual holidays plus 10 statutory holidays

Requirements of the post (Tape Edging)

This job requires the operative to stand for a substantial part of the day with the machine table moving to facilitate stitching. When one side of the mattress is complete the operator, with assistance, turns the mattress to complete the second side. This is primarily a sewing machine operation but needs good hand dexterity and upper body strength

Pay

- National Minimum Wage or National Living Wage, dependant on age
